Syrian Virtual University

Skills

- Software Engineering	9/10	- Data Analysis	9/10	- MS Office	8/10
- Database Management	9/10	- KOBO Toolbox	9/10	- Teaching	8/10
- System Analysis	9/10	- ArcGIS	8/10	- MS Excel	8/10
- Problem solving	9/10	- QGIS	8/10	- IT Managing	8/10
- PHP, Laravel (Backend)	10/10	- Adobe Illustrator	8/10	- Robotics, Arduino	6/10
- Web Design (Frontend)	9/10	- Adobe Photoshop	10/10	- JAVA,C#,C++	6/10
- MySQL Databases	9/10	- Adobe InDesign	9/10		
- Python Programming	8/10	- Networks Management	7/10		

Main Projects

- **Network Engineer Assistant Software**

I developed a program called the "Network Engineer Assistant" simplifies network design and configuration. It communicates with users to gather network requirements, making it a valuable tool for network engineers.

SKILLS: Python, AI, Networks, SQL, Problem Solving.

- **Camps Archive system**

Web application to archive and manage the people's information in the camp, managing and monitoring there in and out movement from the camp. **SKILLS:** PHP, Laravel, MySQL, HTML, CSS, JavaScript.

- **Archive Management System**

Web Application to manage documents archiving in companies.

- **Employees Management System**

Web Application to collect, manage and control employee's data in a company.

SKILLS: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap.

SKILLS: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap.

- **Financial Accounts Management System**

Web application to manage financial accounts, inputs outputs and many features to manage users.

SKILLS: Laravel Framework, MySQL, AJAX, HTML, CSS, JavaScript, Bootstrap.

- **Medicine Warehouse Management System**

Web application to manage medicine inputs and transfers between warehouses.

SKILLS: Laravel Framework, MySQL, AJAX, HTML, CSS, JavaScript, Bootstrap.

- **Coach and supervisor in the population census**

In my capacity as a coach and supervisor during the population census, I showcased my excellence in data analysis. I led teams proficient in using tools like Kobo Toolbox for survey creation and Excel for data management. Additionally, we implemented a customized program, which we designed ourselves, to enhance data analysis and interpretation. My commitment to data accuracy and efficiency was unwavering, contributing significantly to the success of the census operation.

SKILLS: KOBO Toolbox, MS Excel, Data Analysis, ArcGIS, Training.

- **Web Development Instructor**

As a web development instructor, I taught courses covering HTML, CSS, JavaScript, PHP, Laravel, MySQL, and basic React. I focused on creating an engaging learning environment and provided tailored materials to support students of varying skill levels. I offered personalized feedback to foster their growth and success in the field.

Training Courses

- IT Help Desk at European institute.
- Web Development at Ousos center.
- Many other online courses in programming.

Languages

- **Kurdish** Native Language.
- **Arabic** Fluent.
- **English** Excellent.
